Standard 6.4

- CoC Standards 6.4 requirements
 - Monthly submission of all new and updated cases since last submission
 - Annual Call for Data requirements
 - Performance reported at 2 Cancer Committee meetings yearly

- Annual Call for Data
 - All analytic cases with diagnosis year 2022
 - All new and updated cases diagnosis years 2008 to 2021
 - If first accredited date is more recent than 2008, use the most recent date instead of 2008
 - For newly CoC accredited programs submitting 1st CFD submission in 2024 submit all cases with diagnosis year 2022
- Open Window
 - March 1-31, 2024 until 11:59pm CT
- Submission performed through RCRS

2024 Call for Data 2.0

- Monthly RCRS submissions gives us 92% of cases before C4D starts
- New Call for Data 2.0 should just be a final monthly submission
- December 31, 2024 will be the deadline for Call for Data 2.0 for all dx2023 cases
 - This will take some pressure off software rollouts
 - Enable NCDB to produce reports earlier in the year and with newer data
 - Reduce redundancy and check box activities of CTRs
 - Supported by new Cohort Completeness report in RCRS

- Cancer Program News
- NCDB Call for Data website
- NAACCR Implementation Guidelines
