

2023 ACS Cancer Conference: Where Cancer Care Comes Together

Objectives for the main conference March 2 – 4:

At the end of this educational activity, participants will be able to...

- 1) Discuss the updates and changes to the accreditation standards and methods for success at the site visit.
- 2) Describe the basic elements of a QI project and illustrate how this can be applied to evaluating and improving cancer care.
- 3) Apply basic cancer staging criteria and the new cancer schema to correctly classify cancer stage.
- 4) Create a plan for the implementation of new operative standards and reporting of synoptic information.

Objectives for the NAPBC workshop on March 1:

At the end of this educational activity, participants will be able to...

- 1) Review the goal for changing the NAPBC standards to reflect the patient journey.
- 2) Discuss the requirements for the new NAPBC accreditation standards, Optimal Resources for Breast Care, and how they apply to their accredited center.
- 3) Describe the implementation plan for the standards and design a strategy for their accredited center.
- 4) Evaluate the work to date of the PROMPT study and prepare for future QI studies released by the NAPBC.

Pending approval, CE and CME credits will be offered for select posters. Watch for updates on the number of credits available for this portion of the conference.

CE/CME Credits (pending approval): more than 20!
